To change the Latch for left-handed install.

Slide Keeper off the Mount and rotate it 180° degrees.

Mark Latch position on SIDE of gate

Use both FRONT and BACK templates to mark the mounting holes.

Drill a Ø19mm hole at the centre (marked 3/4”) on the both templates.

Drill the Ø3mm pilot holes (marked 1/8”) at each corner of the template.

The Latch comes ready for Right-Handed gates. A few simple steps and the Latch is ready for Left-Handed gates.

To change the Latch for left-handed install.

Slide Keeper off the Mount and rotate it 180° degrees.

Slide Spindle Tube over Spindle.

Secure the Inside Latch to the gate using one 30mm screw.

Position Inside Latch over Spindle Tube and Spindle. If the Latch sits flush secure both Latches using all screws.

If Inside Latch doesn’t sit flush the Spindle Tube or Spindle may be too long. Try this:

- Remove both Latches.
- Mount Inside Latch without Spindle Tube.
- Hold Outside Latch against gate. If it doesn’t sit flush, shorten Spindle. If it’s flush, trim the Spindle Tube.
- All good? Refit with Spindle Tube and secure Latches

Adjust Keeper to position it for Inside Latch.

Lock Keeper with small countersunk screws.

Connect Keeper to Outside Latch then close gate.

Mark fence post on bottom edge and mount Keeper.

Test the lock and unlock function on both sides.

**Million Cycle Warranty and Liability Limitation**

**What Does This Warranty Cover?** This warranty covers materials and workmanship as well as any loss of functionality in your new Armor Latch™, with the exceptions stated below.

**What Will Nationwide Do?**
In the event of any defect in material or workmanship or loss of functionality in the product covered under this warranty, Nationwide will replace such Armor Latch™ with a new Armor Latch™ (or, in the event the Armor Latch™ is no longer available, a lock similar thereto) at no charge.

**How Does State Law Apply?**
This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

**How Long Does the Coverage Last?**
This warranty to the original purchaser (end user) runs for the duration of one million cycles of use. Nationwide Industries assumes this is a true lifetime of use on residential applications, and for commercial applications will use an estimate of usage based on each application.

**How Do You Get Service?**
In the event of any defect in material or workmanship, or failure in the Armor Latch™ covered under this warranty, please return the Armor Latch™ postage paid, together with proof of purchase and a brief written description of the problem to Nationwide Industries, 10333 Windhorst Road, Tampa, Florida 33619, Attention: Customer Service Manager.

**What Does This Warranty Not Cover?** This warranty is void in its entirety in the event the Armor Latch™ is tampered with, altered, misused, neglected, damaged, improperly installed or maintained, repaired or attempted to be repaired by an unauthorized person, or used in any manner which is not in accordance with the instructions provided by Nationwide. Nationwide’s aggregate liability in damages or otherwise shall not exceed the payment, if any, received by Nationwide for the Armor Latch™ furnished to you which is the subject of a claim or dispute. In no event shall Nationwide be liable, whether in contract, in tort, under warranty, in negligence or otherwise for incidental, consequential, or special damages of any kind whatsoever, howsoever caused.

**DISCLAIMER:** To the extent this product is used around a pool, prior to installing, consult local licensing and safety authorities for approvals and/or requirements. A pool owner or operator is always responsible for the safety of those in or around the pool and, to the extent this product is used around a pool, the manufacturer and supplier of this device cannot and will not accept such responsibility. In addition, the manufacturer and supplier of this device cannot and will not accept responsibility for unauthorized modifications to or for defective or inadequate maintenance of this device. No modification to this device whatsoever is to be made other than with respect to the adjustments outlined in the installation instructions. If this device fails to function properly, it should be returned promptly to the supplier for replacement.

Effective for products sold after 1/1/15.
